Copy of E-mail from PO O'NEILL #7789 to R/S

**Summary:** R/S initiated complaint at the request of complainant/victim who gave R/S a to-from report detailing the incident in detail her version of events that occurred on the date/time of allegation. Complainant states that after approaching the accused to discuss pending work assignment(s) the accused swore at her and stood up from her chair in her cubicle and exited the cubicle and "got right up on" her and swore at her again while telling the complainant to "get the hell away from my mother-fucking desk." Complainant states that the custodian personnel, Julia HARDY (who is not present for work at time of this report) had to intervene in the matter and separate the two. Complainant states that witness CHENIER was at his cubicle next to where this occurred and witness O'NEILL #7789. CHENIER related that accused THOMPSON did indeed swear at the complainant after some sort of confrontation between the two parties when discussing another matter in conversation held prior to this initiation report. CHENIER also stated that he did not know what precipitated the confrontation. R/S also spoke with PO O'NEILL #7789 who related that she was at her desk attending to her duties as the commander's secretary and heard a commotion but did not hear exactly what was said between the two parties. O'NEILL #7789 stated that she was approached by THOMPSON later after the commotion at which time THOMPSON made allegations that copies of her time-card were found lying around the office. R/S held a staff meeting prior to the initiation of this complaint (attended by RILEY, THOMPSON, CHENIER, O'NEILL #7789, and PO Jeff ZLOTKOWSKI #18596) in which the accused THOMPSON stated that the complainant was being antagonistic towards her in this incident and after being asked to leave the accused's workspace, became confrontational with her and made person insults towards her and called her a "bitch" as she walked away. Witness CHENIER was also present in this meeting and did not deny the version of events when challenged with this information. After this meeting [REDACTED] requested the issuance of a compliant register number.
